In BrickCAD Lite, installation is bit different. You can add menu with CUSTOMIZE command and You can load lisp file by APPLOAD command.

A Menu Customization	
Menu Groups Menu Bar	In other CAD programs, At command prompt run menuload command (Type menuload and press enter). A dialog box will open showing acad as current menu in menugroup tab. Click on browse near file name text box.
Eile Name: Load Browse Browse	Help
Select Menu File	
Look in: iso 2deditor Iso_sld training iso_inch Iso_mm	Change folder to the folder where all program files are located and click on arrow of Files or Type box. Select Menu Template (*.mnu) and select iso_mm or iso_inch as menu to be loaded Click on open button.
File name: iso_mm Open Files of type: Menu Template (*.mnu) Cance Locate Find File	
AutoCAD Image: Construction of a template menu file (MNU file) overwrites and redefines the menu source file (MNS file), which results in the loss of any toolbar customization changes that have been made. Continue loading MNU file? Yes No	Click on load button. Click yes to continue. For latest version Click on close. iso menu will be loaded, and start using pull dowr menu. The pull-down menu, iso has all the iso drawing options The other menu items are not modified.

If you are using earlier versions, click on menutab menubar. Click on arrow in menu group list box.
